WARNING TO SKIERS AND SNOWBOARDERS: Downhill skiing, as other sports, contains inherent risks, including but not limited to the risk of personal injury, including catastrophic injury or death or property damage, which may be caused by variations in terrain or weather conditions or surface or sub-surface snow, ice, bare spots or areas of thin cover, moguls, ruts, bumps or other persons using the facilities; or rocks, branches, forest growth, debris, roots, stumps, or other natural objects or man-made objects that are incidental to the provision or maintenance of a ski facility in New York State. New York State law imposes a duty on you to become apprised of and understand the risks inherent in the sport of skiing, which are set forth above, so that you may make an informed decision of whether to participate in skiing notwithstanding the risks. New York also imposes additional duties upon you, to which you must adhere, for the purpose of avoiding injury caused by any of the risks inherent in skiing. A complete list of these responsibilities are posted at the area under the New York State Industrial code rule #54 (safety in skiing) If you are not willing to assume all of these risks and abide by these duties, you must not participate in skiing at this area. Willard Mountain strongly suggests the use of a helmet at all times while skiing and riding.

RENTAL AGREEMENT

DETERMINE YOUR SKIER TYPE: **CIRCLE** the description below that BEST describes your skiing classification **and** fill in the physical description information. This information will be used by the shop to determine the release/retention settings of your ski bindings. Please be as accurate as possible, as any error may increase your risk of injury!

TYPE I	TYPE II	TYPE III	PHYSICAL INFORMATION
<p>Cautious Skiing at Lighter Release/Retention Settings</p> <ul style="list-style-type: none"> Type I settings apply to "entry-level skiers uncertain of their classification" Ski conservatively Prefer slower speeds Prefer easy, moderate slopes Favor lower than average release/retention settings (this corresponds to an increased risk of inadvertent binding release in order to gain increased releasability in a fall) 	<p>Moderate Skiing at Average Release/Retention Settings</p> <ul style="list-style-type: none"> Are all the skiers who do not meet all the descriptions of either Type I or Type III Ski moderately Prefer a variety of speeds Ski on varied terrain, including the most difficult trails 	<p>Aggressive Skiing at Higher Release/Retention Settings</p> <ul style="list-style-type: none"> Ski aggressively Normally ski at high speeds Prefer steeper and more challenging terrain Favor higher than average release/retention settings (this corresponds to a decreased releasability in a fall in order to gain a decreased risk of inadvertent binding release) 	<p>Age: _____</p> <p>Height: _____ft _____in</p> <p>Weight: _____lbs</p> <p>Shoe Size: _____</p>

Skier Rental Agreement & Release of Liability: I understand that the skiing equipment being furnished forms a part of or all of a ski-boot-binding system which will NOT RELEASE at all times or under all circumstances, and that it is not possible to predict every situation in which it will or will not release, and that its use cannot guarantee my safety or freedom from injury while skiing. I further agree and understand that this ski-boot-binding system may reduce but does not eliminate the risk of injuries to the bottom one third of my lower leg. However, I agree and understand that this ski-boot-binding system does not reduce the risk of injuries to my knees or any other part of my body. I agree and understand how the ski-boot-binding system works, have been instructed in its proper use and hereby agree to freely and expressly assume and accept any and all risks of injury or death to the user of the equipment while skiing.
