<input type="checkbox"/> Sun. AM 9:00-1:00	9:30-11:00am	Ski Experience: <input type="checkbox"/> Never Ever <input type="checkbox"/> Tow Lift <input type="checkbox"/> Chair Lift			Exp. Date _____ / _____
<input type="checkbox"/> Sun. PM 1:30-6:00	2:00-3:30pm				
FULL DAY <input type="checkbox"/> Sat. <input type="checkbox"/> Sun.					

AGAIN THIS YEAR – All Participants will be issued a Photo I.D. Program Pass taken at Willard Mountain. If you forget your pass, the first time there is no charge for a replacement program ticket, the second time a \$5.00 charge, the third time a \$10.00 charge for a replacement pass. Anyone allowing another person to use his or her pass for skiing will have that pass revoked with no refund.

WARNING TO SKIERS: Downhill skiing, as other sports, contains inherent risks, including but not limited to the risk of personal injury, including catastrophic injury or death or property damage, which may be caused by variations in terrain or weather conditions or surface or sub-surface snow, ice, bare spots or areas of thin cover, moguls, ruts, bumps or other persons using the facilities; or rocks, branches, forest growth, debris, roots, stumps, or other natural objects or man-made objects that are incidental to the provision or maintenance of a ski facility in New York State. New York State law imposes a duty on you to become apprised of and understand the risks inherent in the sport of skiing, which are set forth above, so that you may make an informed decision of whether to participate in skiing notwithstanding the risks. New York also imposes additional duties upon you, to which you must adhere, for the purpose of avoiding injury caused by any of the risks inherent in skiing. A complete list of these responsibilities are posted at the area under the New York State Industrial code rule #54 (safety in skiing) If you are not willing to assume all of these risks and abide by these duties, you must not participate in skiing at this area.

WILLARD MOUNTAIN GROUP RENTAL AGREEMENT

Ski Equipment

Skier/Boarder's Name: _____ Group Name: _____

Address: _____ Height: _____ ft _____ in Weight _____ lbs

City _____ State _____ ZIP _____ Age _____ yrs Shoe Size _____

CLASSIFY YOUR SKIER TYPE(please see below) 1 2 3

DETERMINING YOUR SKIER TYPE IS YOUR RESPONSIBILITY!

Your skier type, height, weight, age and ski boot sole length are used by the shop to determine the release/retention settings of your ski bindings. Be sure to provide accurate information; any error may increase your risk of injury. Consult these descriptions to select your classification. These new I, II, III designations replace the L-A-S system formerly used.

FOR RENTAL SHOP USE ONLY
Boot Size _____ MM _____
Ski size _____
Skier code _____ DIN _____
Technician _____

TYPE I

Cautious Skiing at Lighter Release/Retention Settings

- ski conservatively
- prefer slower speeds
- prefer easy, moderate slopes
- favor lower than average release/retention settings
- This corresponds to an increased risk of inadvertent binding release on order to gain increased releasability in a fall
- Type I settings apply to "entry-level skiers uncertain of their classification"

TYPE II

Moderate Skiing at Average Release/Retention Settings

- ski moderately
- prefer a variety of speeds
- ski on varied terrain, including most difficult trails
- are all skiers who do not meet all the descriptions of either Type I or Type III

TYPE III

Aggressive Skiing at Higher Release/Retention Settings

- ski aggressively
- normally ski at high speeds
- prefer steeper and more challenging terrain
- favor higher than average release/retention settings
- This corresponds to decreased releasability in a fall in order to gain a decreased risk of inadvertent binding release

Rental Agreement & Release of Liability

I understand that the skiing equipment being furnished forms a part of or all of a ski-boot-binding system which will NOT RELEASE at all times or under all circumstances, and that it is not possible to predict every situation in which it will or will not release, and that its use cannot guarantee my safety or freedom from injury while skiing. I further agree and understand that this ski-boot-binding system may reduce but does not eliminate the risk of injuries to the bottom one third of my lower leg. However, I agree and understand that this ski-boot-binding system does not reduce the risk of injuries to my knees or any other part of my body. I agree and understand how the ski-boot-binding system works, have been instructed in its proper use and hereby agree to freely and expressly assume and accept any and all risks of injury or death to the user of the equipment while skiing.
